

## SCHOOL OF THERAPEUTIC SCIENCES

# DANCE MOVEMENT THERAPY

### Master of Arts

#### Why study dance movement therapy?

Dance Movement Therapy (DMT) and other arts therapies are increasingly popular in healthcare, and the research base for these fields is growing. As an arts therapy approach, DMT has the potential to contribute to activation, stabilisation, and recovery in the context of prevention, acute intervention, and rehabilitation. Graduates may also pursue careers in research and education.

#### Career perspectives

The applied master's program qualifies the graduate for clinical practice, working with children and adults in the following core fields:

- Psychiatry
- Psychosomatic medicine & psychotherapy
- Pediatrics, child and adolescent psychiatry and psychotherapy, autism
- Forensic settings
- Neurology, pain, oncology

#### Key points

- Full-time program
- Course language: 100% English
- Subject-focused 5-week blocks
- Active teaching and learning methods
- Applied degree with an in-house psychophysiological laboratory and research projects
- Self-experience and therapy supervision

#### Program overview

- Core Subjects: scholarly research, dance movement skills, psychology, neurology, evidence-based dance movement therapy, arts therapies etc.
- Clinical placement & supervised practical training

#### Admission requirements

- Undergraduate degree in one of the following disciplines: dance/artistic studies, psychology, social work, humanities, health sciences or related fields
- Personal and artistic eligibility (assessment)
